The CORSA Distinction

No Other Exhaust Manufacturer Delivers All Three:

1] NO RESONANCE/DRONE

- Due to our patented Reflective Sound Cancellation™ (RSC™) technology: your exhaust is whisper quiet at highway speeds.

2] Increased Horsepower and Torque

- Resulting from a straight-through design; increased flow and less backpressure.

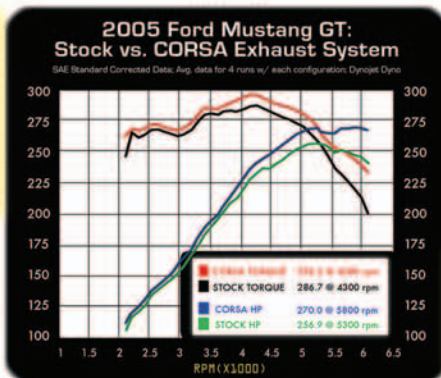

3] Great Performance Sound

- We tune in the good sounds and cancel the bad, without the use of baffles or steel wool packing material.
